The GEC is a not-for-profit agency, founded in 1958, by parents, and friends of individuals living with developmental disabilities. The GEC grew from a dedicated group of parents volunteering their time to support each other, to a leading edge advocacy agency that spearheaded community living options, opening the very first group home in New York State (1970). The GEC provides a variety of person-centered programs and therapies, including clinical, educational, social, vocational, recreational, and support services to nearly 1000 individuals and their families each day throughout the year.
